Anthropology as a Major and Career

<http://content.csbs.utah.edu/~cashdan/tig>

Course Aims and Description

This course is designed to help you transition from student to career. The best way to do that is to start now to identify career opportunities of interest, so that you have time to obtain the skills and experience that will help you achieve your goals. This course will (1) introduce you to University and Departmental opportunities and resources, (2) teach you about career opportunities for anthropology majors, (3) help you to identify your own goals and how to reach them, and (4) teach you to be a more competitive applicant for internships, jobs, and graduate school. You will learn about Departmental programs and University resources primarily through guest speakers, and you will explore career options through both individual assignments and a group project.

After completing the course, you will know more about the career options available for anthropology majors, and you will have identified and researched one of these that meets your goals. You will learn about opportunities and resources at the University that will help you reach those goals. You will leave the class with a written career plan, a resume, and a cover letter for a position of interest.

The course website is at <http://content.csbs.utah.edu/~cashdan/tig>. The website includes additional information about final reports, as well as many links about career resources, field schools, etc. Please check it regularly for announcements. This course does not use Canvas.

Course Requirements

Reading. The book *The Anthropology Graduate's Guide: From Student to a Career*, by Ellick and Watkins, is required. Other articles may occasionally be assigned.

Attendance. Regular attendance is expected, because most of the learning will take place in class and cannot be replicated at home. A sign-in sheet will be passed around each class period; it is your responsibility to sign in each time. There are many guest lectures in this class, and arriving late or leaving early is very disruptive to the speakers, so please be courteous and arrive on time; Students arriving more than 10 minutes late will not be allowed to sign the attendance sheet.

Written work Students will complete 5 written homework assignments, a group presentation on career options, and a final individual career report. Some assignments will not be written, but will be discussed in class with others who share your career interests. See course calendar and webpage for further information. If you take the homework assignments seriously and do what the assignment requires, you will get full credit.
