COURSE DESCRIPTION

The focus of the course is the social, cultural, historical, and psychological study of fatherhood over the life span and corresponding perspectives regarding masculinity and manhood. We will analyze the role of fathers in the social, emotional, cognitive, and physical development of children and the role of fathers in the development of gender identity and sexual orientation in children. The course will examine the various and controversial roles and images of fathers as nurturers, co-parents, providers, protectors, patriarchs, “dead-beat dads,” and sperm-donors in our culture and the media. We will also explore and discuss processes for establishing, maintaining, and strengthening relationships between fathers and their children.

IMPORTANT QUESTIONS TO BE ADDRESSED IN THE COURSE

1. How is father care different from mother care and how and why does it matter so much to children?
2. How are children who have been raised with an involved father different from children raised without an involved father or without a father?
3. What are the effects on men of being involved in the raising of children?
4. What are the costs to fathers, children, and fatherneed due to divorce?
5. What are the varieties of fatherneed among different kinds of dads in our society today (e.g., dads of color, teen dads, stepdads, gay dads, adoptive dads, etc.)?
6. What is the role of women in men’s involvement in the raising of children?
7. Why and how can so many men have children, leave them, then have more children, etc.?
8. What are the barriers in our culture that discourage fathers from becoming more competent and from being more involved as fathers?
9. How can public policy help create father-friendly environments in and out of the workplace?

REQUIRED COURSE READINGS

1. Pruett, Kyle D. (2001). Fatherneed: Why father care is as essential as mother care for your child. New York: Broadway Books. NOTE: This text is no longer in print. We will read many of the chapters in this book. Most of the introduction and the first three chapters of the book are on electronic reserve. Other chapters will have to be photocopied from copies of the book available from the reserve library or from copies of the book you may find in local libraries. Another solution is to go online and order a used copy from a used book outlet such as Amazon.com, Ebay.com, Alibris.com, etc. I apologize for this inconvenience.
2. Some other required readings will be available on “Electronic Reserve” through the Marriott Library.
   - Instructions pertinent to using the internet and “E-Reserve” are at the following location on the internet: [http://www.lib.utah.edu/circ/reserve/student.html](http://www.lib.utah.edu/circ/reserve/student.html).
   - To help you access “e-reserve” readings from an off-campus computer, instructions came be found at: [http://www.lib.utah.edu/information/remote.html](http://www.lib.utah.edu/information/remote.html).
3. Several required readings can be accessed directly from web pages on the internet.

Lecture notes for the different reading assignments in Pruett and from other sources are available to read and/or download to your own computer from my faculty web site which is located at: http://www.fcs.utah.edu/faculty/herrin/. Simply scroll down to the relevant items listed under the section labeled “Current Course Syllabi, Overhead Notes, and Materials.” The notes are essentially the text of the overheads that I use in class lectures. Hopefully, by having the notes for a particular lecture when you attend, you can listen more for things that are of interest to you and how the things we are learning might be applied in your own lives and jot down some notes about such things rather than having to copy down all the information on the overheads.

COURSE LEARNING DEMONSTRATIONS, ACTIVITIES, AND COURSE “ODDS and ENDS”

EXAMS (80% of total course grade). There are three in-class exams. The highest two of three exam grades are counted for the final grade after the lowest of the three exams is dropped. If you know that you will miss two of the three exams, please realize it will be difficult to get a grade higher than a D. If you are satisfied with your first two exam grades, you do not have to take the third exam. The exams contain approximately 100 to 130 items that are primarily multiple-choice and true/false items with some matching and short fill-in items. Exams cover both topics and content discussed in class lectures and/or the readings. THERE ARE NO MAKE-UP EXAMS. The exams are scheduled on TUESDAY, FEBRUARY 13; TUESDAY, MARCH 27; AND DURING THE REGULARLY SCHEDULED FINAL EXAM PERIOD WHICH IS TUESDAY, MAY 1, FROM 10:30 A.M. TO 12:30 P.M. The third exam IS NOT comprehensive.

IN-CLASS ACTIVITIES (20% of grade). During most class meetings we engage in activities, as individuals and/or in small groups, that build on your class preparation, readings, and other class activities. A few activities may require work outside of class but most are completed in class. For these activities, you receive credit if you are present, participate, and turn your work in at the end of the particular class meeting with your name on it. Since these activities take place and have their intended meaning within the context of a particular class meeting, you have to be in class to participate and receive credit. Parts of activities missed because you were late in coming to class or activities missed because you were not in class at all, cannot be made up. These exercises are intended to provide experiences with additional forms of learning in addition to reading and listening to lectures. Your grade for these activities will be determined by the percentage of the total number of these activities that you complete in class. There will be at least ten of these activities.

COURSE WITHDRAWAL POLICY. Each of you may formally withdraw from the course for academic reasons up through FRIDAY, MARCH 2. If you remain in the course after this date you cannot withdraw for academic reasons at any other time during the term. The online Student Information System includes the following “Notice” regarding this matter [see “drop/withdrawal deadlines”]:

After the withdrawal deadline, you may petition for withdrawal if you have a nonacademic emergency. Submit a petition and supporting documentation to the office of the dean of your academic college. Undeclared, nonmatriculated and premajor students apply to the University College. You must submit the petition to the appropriate dean’s office by the last day of regular course instruction preceding the final exam period.
INCOMPLETE POLICY. According to University policy, students must have completed 80% of the course requirements to be eligible for an “Incomplete” grade.

GRADING SCALE. Letter grades are assigned to exam scores and to total points at the end of the term according to the scale of percentages listed below.

REQUESTS for SPECIAL ACCOMMODATIONS by STUDENTS with DISABILITIES. Persons with disabilities requiring special accommodations to meet the expectations of this course are encouraged to bring this to the attention of the instructor as soon as possible. Written documentation of the disability should be submitted during the first week of the term along with the request for special accommodations. To do so, contact the Center for Disabled Student Services, located at 160 Union Building (phone 581-5020).

PRIVACY of STUDENT INFORMATION and MATERIALS. The Family Educational Rights and Privacy Act passed by the U.S. Congress in 1974, among other things, prohibits the public posting of grades or test scores using personally identifiable information (such as name or social security number) and the distribution of graded exams and assignments from a public area. If there arises a need to post grades or scores during the term, I will assign each student a random number or name or use an exam booklet I.D. number which will then be used for identification purposes.

APPROPRIATE CONDUCT. Avoid all forms of “academic dishonesty” (cheating, plagiarism, collusion, etc.). “Plagiarism” is the appropriation of any other person’s work and the unacknowledged incorporation of that work in one’s own work offered for credit. “Collusion” is the unauthorized collaboration with any other person in preparing work offered for credit (see Article XI, Proscribed Conduct of the University of Utah Student Code, enacted in 1971, page 8.)
